SOUTH AUSTRALIA.

STATISTICAL REGISTER.

1942-43.

Compiled from Official Records.

By A. W. BOWDEN, A.I.A.,
Government Statist, &c.

BY AUTHORITY: K. M. STEVENSON, Government Printer, Adelaide.

1944.

Statistical Register of South Australia, 1942-1943.

PREFACE.

The Statistical Register is divided into five parts as follow:—

- Part I.—Social—Administration, Justice, Education, Hospitals, Charities, etc.
- II.—Population and Vital
- III.—Finance—State, Local Government, Banking, etc.
- IV.—Trade, Transport and Communication. (Not available for publication during war)
- V.—Production

The Statistical Summary of South Australia for the years 1836 to date inclusive has not been attached to this volume.

Certain returns—marked D in Index—have been omitted from this issue because of shortage of paper, staff, etc. Information for previous years is shown in previous years' issues, and certain information for the current year is shown in other departmental reports, such as Budget Papers and Reports of the Education, Police, Hospitals, etc., Departments.

Since in most cases considerations of space do not permit of a verbal analysis of the figures, it has been necessary in certain tables to append explanatory notes at the bottom of the page. Careful attention is drawn to these notes since they will generally be of considerable assistance in interpreting the published figures.

My thanks are tendered to the various heads of State and Commonwealth Departments for their co-operation in furnishing statistical data, often at considerable inconvenience.

I desire also to express my appreciation of the services of Mr. H. L. Semmens, Assistant Government Statist, and of the staff of compilers and other officers for their careful attention to intricate details in the compilation of the various sections of this volume.

1st November, 1944.

A. W. BOWDEN, Government Statist, etc.

* Classification numbers and diseases as per 1929 International Classification which was used up to 1939, and as per 1938 classification, which has been used from 1940 on, are shown. In some cases, definite comparisons cannot be made, and even where comparisons are shown there are slight variations.

* Including scoured wool converted into greasy.

† Excluding £2,592,016 half-share of profits on resale of wool by Imperial Government to which the growers were entitled.

‡ Interstate trade in wool, stocks, and wool used in local factories, are factors which cause differences between figures for oversea export and for actual production.

(a) Gross value is defined as the value placed on recorded production at the wholesale price realised in the principal markets. Where primary products are absorbed at a local point or become raw material for a secondary industry, the value in each case is presumed to be the value at the principal market. Values include Bounties. (b) Marketing Costs.—Freight, commission, containers, insurance, etc. (c) Local value is gross value less marketing costs, being value at place of production. (d) Production costs such as stock feed, petrol, oil, seed costs, seed pickling, manures, spraying, dips, and power and water used in irrigation. (e) Production Costs.—Depreciation of machinery and implements (Agricultural, 10 per cent., pastoral and dairying, 5 per cent.) and maintenance of buildings and fences (4 per cent. on estimated present value of buildings, etc., used for farm or station purposes, excluding residences). (f) Net value is local value less production costs. (g) Local value is also accepted as net. (h) Gross value is also accepted as local and net for years prior to 1935-36. (i) Not available for previous years. (j) Power, fuel, explosives, timber, etc.

FACTORIES.

NOTE.—The average number of persons employed means the average number over the whole year, except where otherwise specifically stated. Consequently in returns relating to employment and in the computation of average salaries and wages paid, production per employee, etc., the average number for the whole year is used.

From 1940-41, particulars for Electricity and Gas Undertakings refer only to generation and exclude, for example, approximately 1,500 hands, £400,000 salaries and wages, and £700,000 value of production for distribution and transmission which were previously included.
